

PRE SCREEN COVID-19 HEALTH WAIVER

We are requiring pre-screening of campers with parents/guardians at home. Please self-monitor for 14 days and conduct pre-screening activities such as:

- Take and record camper's temperature for 14 days before 1st week of camp
- Self-screen for the presence of COVID-19 symptoms (fever of 100.4 °F or greater, cough, shortness of breath, diarrhea, fatigue, headache, muscle aches, nausea, loss of taste or smell, sore throat, vomiting, etc.) within the past two weeks.
- Determine if, within the past two weeks, the camper has traveled nationally or internationally.
- Determine if the camper has been in close contact with a person who has been diagnosed with, tested for, or quarantined as a result of COVID-19.

I agree to pre screening my camper for any COVID-19 symptoms prior to camp, and will not send them to camp if they have any symptoms listed above.
